# About Us

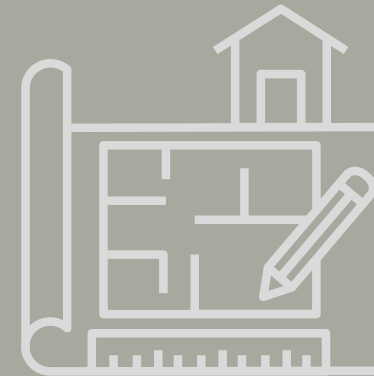

We are a specialized team for architectural visualization based in Germany, creating high-quality 3D visualizations for national and international construction projects since 2018. With solid architectural expertise and a strong sense of design and aesthetics, we bring projects to life with photorealistic interior and exterior visuals, landscape designs, 3D floor plans, 360° tours, and animated presentations. Our mission is to support architecture and real estate companies in presenting their projects effectively for competitions, brochures, investor presentations, and sales materials. We work efficiently with tools like 3ds Max, V-Ray, and other professional software, offering customized solutions focused on quality, reliability, and impactful visual communication.

### Our Expertise

Our architecture blends timeless aesthetics with modern functionality, innovative technology, and sustainable principles. Each project is designed in harmony with its natural surroundings, reflecting both traditional values and contemporary lifestyles. We create spaces that stand out through thoughtful design, efficiency, and durability, with quality, style, and environmental responsibility always at the forefront.

With expertise in architectural visualization, we bring ideas to life before they're built, offering clear and compelling visuals that help clients fully experience their future spaces.

The result: distinctive, personalized, and future-ready environments, from residential projects to public, commercial, and cultural spaces.

## Villa

### VILLA (2024)

DAMAVAND

Damavand Villa rises on a mountain slope to capture sweeping views of Damavand. Its three floors, slanted columns, and insulated frame address seismic and cold-climate challenges. A southeast terrace with an inclinable roof optimizes vistas. The project won an A' Design Award Silver Medal and ArchDaily nomination.

### VILLA (2023)

DALLAS

Villa is a two-level luxury residence combining elegance and comfort. The first floor features a sunlit living area and modern kitchen, while the second hosts ensuite bedrooms and a grand staircase. An expansive balcony crowns the design, offering sweeping views and a refined retreat for relaxation.
